Amends:

Policy Statement

The Council recognizes the need to develop a standard for sanding and salting the streets within the community to help alleviate the build-up of ice and to provide ease for pedestrians.

Procedure:

The Public Works Department shall ensure that the following is followed:

1. Once the snow has been removed from the streets the Village will immediately spread sand & salt on all streets and avenues to prevent the build-up of ice.
2. The mix to be used will be 50/50 from the sand & salt shed at Ledcor.
