Subject: Alberta Urban Municipalities Association (AUMA) Fall Meetings - November 4th and 5th, 2020

This years meetings with our Alberta Urban Municipalities Association partners will be conducted virtually, via Zoom. The actual AUMA was recently held virtually in September.

In order to meet with as many communities as possible, we have two days set aside for these brief meetings: Wednesday November 4th and Thursday November 5th. These meetings will allow the CO and ADM to have brief discussions with communities regarding various aspects of their current and future service delivery.

Detachment and district level service delivery concerns are part of the ongoing relationship management at those levels and are best addressed at the local RCMP and those communities. Issues that are relative to Division management or that would have a division wide impact would be the topic for these meetings with the CO and ADM. Communities who have no specific concerns, but would still like to meet will not be afforded meetings this year. These communities will be referred to our new Client Service Officer, Insp. Ed Moreland, who will follow-up with them.

If you would like to participate and meet, please forward me any issues/concerns no later then Monday, October 26th. Please include one community contact name, their e-mail and telephone number. Once the schedule is finalized, an appointed time will be given to each representative.

Thanks
