Chief Administrative Officer Report
December 16, 2021

December 1 – Council Meeting
December 2 - Central Peace Regional Emergency Partnership Meeting
December 3 – Christmas Tree Light up
December 8 – Medical Clinic Meeting; G5 Water Plan Meeting
December 10 – Central Peace Waste Mgmt Committee Meeting
December 14 and 15 – Council Strategic Planning Workshop; G5 General Meeting
December 17 – Christmas Party

From the G5 Water Plan meeting, we require the following motion as support for the grant application for the next phases of the project: *That Council supports an application to Alberta Transportation for the Water for Life – New Regional Water Systems grant program for the design and construction of a new regional water treatment plant (hub) for the Central Peace Regional Water System.*

For the 2020 Disaster Recovery Program Weir Repair project, our final submission is sent to their Engineer who will need to create the Final Engineering Report before final payment can be issued. This may be completed early in the new year if the Final Engineering Report can be produced, or it may be spring if a site inspection is required.

As of January 1, 2020, new regulation states that elected officials must complete the Municipal Elected Official Emergency Management Training Workshop within 90 days of taking office (January 19, 2022). Every effort should be made by municipalities to meet the 90-day requirement.
