

**Village of Rycroft Council,**

The Rycroft Baseball Association is making a request for extra funding to plant trees (pine or spruce) where the old poplars and willows were brushed.

It was great to have that area brushed and cleaned out and it should help the drainage immensely which is a concern and issue in that area.

Replacing the old willows and poplars with spruce and/or pine trees will help with shade and also help keep the wind to a minimum.

We are asking for \$2500 to hopefully plant 10 trees at \$250 each (good sized ones if possible).

We hope council sees fit for our request.

Danny Zahara

President

Rycroft Baseball Association
