Hello,

I would love to see this community continue to grow and bloom. I'm loving some of the ideas the council has be looking at, like the walking trail. I'd like to throw an idea out there that we also look at installing a splash park. I got a rough quote from a company to share with you. I asked for a small park, rodeo themed but I think this designs they sent needs some jazzing up. It atleast gives an idea though.
The west side of town could use some new activity, so I'd love to see the splash park at the Lions park.
I'd be willing to help fundraise for the project if needed.

Thanks for your consideration,
Carrie Jackson
