

Chief Administrative Officer Report August 10, 2023

August 2 – Council Meeting

August 2 to 5 – Spirit River Flooring put new flooring in the Administration Office

August 10 – Meeting with Premier

The East Side Road Paving Project is planned to start on August 17 and wrap up by September 30.

The completion of the Baseball diamond drainage/landscaping project has been delayed due to weather and subsequent wet ground conditions.

The new office flooring project was completed by Spirit River Flooring August 2-4. We did have to close the office for a day when communication systems had to be moved to place the new flooring. Disruption to the office operation was minimal.
