

Chief Administrative Officer Report December 15, 2023

December 7 – G5 General Meeting

December 8 – Viability Review Exit Interview with Municipal Affairs

December 11 – CP Medical Corporation Mtg; CP Water Collaboration Committee Mtg

December 13 - CP Regional Waste Management Commission Mtg; Canadian Fibre Optics Administration Planning Mtg

December 15 - Council Strategic Planning Meeting

The Viability Review exit interview simply asked questions about the process and how it can be made better for the future. Feedback was provided.

The Canadian Fiber Optics meeting was held jointly with the CAO from the Town, as our contracts should be identical. They had a legal review of the document and that will be forwarded to the company for consideration. We noted that we do not have the authority to exempt linear taxes, as that is the responsibility of the Provincial Assessor. We have asked for specifics on volumes of water required and waste material produced. Everything looks like it is moving forward.

We received a letter of support from the Alberta Advantage Immigration Program to inform us that effective December 15, 2023, the Village of Rycroft is included in the County of Grand Prairie's designation under the Rural Renewal Steam for the remainder of the designation period.
