REQUEST FOR DONATION

Greetings Community Member,

The Central Peace Community Garden Park is in it's second growing season and we are excited to start expanding our gardens!

The mission of the CPCGP is to provide Spirit River, Rycroft and surrounding area residents with the opportunity to be engaged in a healthy recreational activity, meeting neighbours , building community and creating learning opportunities, all while growing nutritious food for consumption.

We have secured a large plot of land in the Town of Spirit River and a smaller lot in the Village of Rycroft. In the 2023 growing season we donated over 300 lbs. of fresh produce to the local food bank and had many people and families utilizing the garden for their food needs and wants. We had 138 volunteers, including students from Ste. Marie School and saw volunteers put in over 500 volunteer hours.

In 2023 we constructed 12 garden boxes, started in-ground planting, and purchased garden sheds. Our vision for 2024 is to expand both locations. We would like to plant trees producing nuts, fruits and berries. We plan on expanding with more raised beds and in-ground planting. We also want to be able to provide benches and shade shelter for our hard-working volunteers that come to work in the gardens. It is for this reason that we are reaching out to you. We hope that you will consider a monetary donation of $200.00-$500.00. A cheque may be made payable to Central Peace Community Garden Park and mailed to Box 322 Spirit River T0H 3G0 or a member can come by to pick up your donation.
Thank you very much for your consideration.

If you have any questions about the project or would like more information please feel free to contact:
