Chief Administrative Officer Report
May 30, 2024

May 28 – ACP Project Scope Meeting
May 29 – Staff Meeting

The next G5 meeting is on Thursday, June 13 at the Gordondale Community Hall from 5:00 to 8:00 p.m. Who is attending and do we have any agenda items?

40 trees were planted at the ball diamond on May 16 and 17. The irrigation system was installed May 22 and 23. Public Works will now work with Honey Lefley to complete the final landscape work.

Canadian Fiber Optics installed lines in the area that we are paving roads, coordinating with the paving project. Dolan and I met with them May 7 to review plans and logistics.

Three properties remain on the list for the June 12 Property Tax Sale at 10:00 a.m. in the Council Chambers.

The Bylaw Officer has been given direction to act on properties that are not regularly cutting their lawns, as per the Bylaw.

New compressors and motors have been ordered for the Water Treatment Plant aeration system. The old ones failed after 11 years. We have verified with the suppliers that the life span of the system is 5 to 15 years, with operations 24 hours/day, seven days/week.
