

Chief Administrative Officer Report June 3, 2026

Governance and training

- Over July and August all staff are scheduled to attend first aid training. OHS compliance.
- Received inquiries about house types in R1 zoned properties.

Ongoing projects

- Administration has begun developing the Request for Proposal for the work to be completed for the 51 St. Pipe project. Estimate this project being completed mid-September 2026.

Village buildings and assets

- Ice is fully out of the arena for the summer.
- Village roads were swept May 18-24, 2026. Administration will continue to build an inventory of contractors for future work.
- The 2026 road crack sealing program is complete.
- Contractor was required to eliminate a blockage in the sewer line from the Community hall. Contractor traced and imaged the pipes leaving the building. New information stored at public works for future use.
- Plan in place for placing calcium application on industrial park roads for this summer.

Discussions continue with the Merry Pioneers about the development of the Sr. Park on 52nd street.
